Lastly, the critical sociology or the transformational approach always gives a main purpose of any doings and action of man into transforming lives of society. Often times, it goes beyond questions of the scientific sociology. It says that people could take responsibility for becoming what they chose. The scientific sociology, in terms of advantage could be justified by hard data and valid supports from the records and files gathered throughout the observation period. It could support and deconstruct conclusions and assumptions with mere verifiable data. Megan Morgan is a Graduate Program Academic Advisor in the School of Public & International Affairs at the University of Georgia. She earned her PhD in English from the University of Georgia in 2015. There are 18 references cited in this article, which can be found at the bottom of the page. A critical essay is an analysis of a text such as a book, film, article, or painting. The goal of this type of paper is to offer a text or an interpretation of some aspect of a text or to situate the text in a broader context. Critical theory is the reflective assessment and critique of society and culture by applying knowledge from the social sciences and the humanities. As a term, critical theory has two meanings with different origins and histories: the first originated in sociology and the second originated in literary criticism, whereby it is used and applied as an umbrella term that can describe a theory founded upon critique; thus, the theorist Max Horkheimer described a theory as critical insofar as it seeks "to
