The Romans weathered a Germanic uprising in the late fourth century, but in 410 the Visigoth King Alaric successfully sacked the city of Rome. The Empire spent the next several decades under constant threat before the Eternal City was raided again in 455, this time by the Vandals. Finally, in 476, the Germanic leader Odoacer staged a revolt and deposed the Emperor Romulus Augustulus. The fate of Western Rome was partially sealed in the late third century, when the Emperor Diocletian divided the Empire into two halves—the Western Empire seated in the city of Milan, and the Eastern Empire in Byzantium, later known as Constantinople. The division made the empire more easily governable in the short term, but over time the two halves drifted apart. The Roman Empire was the longest-lasting and largest empire in European history. It collapsed in 476 when Germanic tribes invaded the city. Its early inhabitants were called the Latins, who lived on the fertile plains of Latium. During its early history ancient Rome was controlled by the Etruscans, people who lived in northern Italy. At that time they were the most modern civilization in Italy. Rome grew steadily under Etruscan influence. At about 500 the Etruscan occupation ended and Rome became a republic. The Roman Republic. The republic was governed by two consuls. They were chosen by an assembly of men. The Senate was an institution that advised the consuls. Although it was weak at first, its power grew gradually. By this tim
