Hospital Epidemiology & Infection Control
Lippincott Williams & Wilkins
Doody’s Star Rating®: 4 stars, score: 93, Doody’s Core Title: 2.67 (Health Sciences — Infectious Disease)
Thoroughly revised and updated for its Fourth Edition, this highly acclaimed volume is the most comprehensive reference on hospital epidemiology and infection control. Written by over 150 leading experts, this new edition examines every type of hospital–acquired (nosocomial) infection and addresses every issue relating to surveillance, prevention, and control of these infections in patients and in healthcare workers.

Expert review from Doody’s Review Service:
“The complex field of healthcare epidemiology and infection control demands an up–to–date comprehensive and practical book for those in the trenches. Look no further — this is it!”
Farrin Manian, MD, MPH
St. John’s Mercy Medical Center

Administrative news: #PostAc. Dear reader, For the purposes of transparency and full disclosure, there have been some changes in my personal circumstances that I need to make you aware of going forward. No, the SoPD is not stopping (calm down Lionel), but it will no longer be the blog of a research scientist. Let me explain: I have decided to step away from academia – to take up a new role as the Deputy Director of Research at the Cure Parkinson's Trust, which I will be starting on the 1st of October.
