above. Report this video. Select an issue. The role of advanced practice nurses in knowledge brokering as a means of promoting evidence-based practice among clinical nurses. J Adv Nurs 2011;67:2004-14. OpenUrl CrossRef PubMed. Implications for practice and research. Advanced practice nurses (APNs) can play a critical role in facilitating evidence-based practice (EBP). The effect of APNs on EBP implementation by clinical (staff) nurses and on clinical outcomes needs further exploration/measurement. Context. The barriers and organisational constraints related to EBP have been well described.1,2 Recently, the literature has focused on factors that facilitate EBP.3,4 The context of nursing practice settings has View Full Text.
