13 "Best Books" lists combined and condensed into one master best books list, for the benefit of your reading pleasure. 623 of the best books ever written - can you collect them all? #1. The Great Gatsby. This list is generated from 120 "best of" book lists from a variety of great sources. An algorithm is used to create a master list based on how many lists a particular book appears on. Some lists count more than others. I generally trust "best of all time" lists voted by authors and experts over user-generated lists. On the lists that are actually ranked, the book that is 1st counts a lot more than the book that's 100th. If you have any comments, suggestions, or corrections please feel free to e-mail me. The Lists. Booklist is a publication of the American Library Association that provides critical reviews of books and audiovisual materials for all ages. Booklist's primary audience consists of libraries, educators, and booksellers. The magazine is available to subscribers in print and online. Booklist is published 22 times per year, and reviews over 7,500 titles annually. The Booklist brand also offers a blog, various newsletters, and monthly webinars. The Booklist offices are located in the American Library
