Whether social history and the "new" cultural history are one and the same, or whether they continue to express different if overlapping orbits, is not yet fully resolved. The "new" cultural history reflects autonomous developments within the cultural field as well as a rebalancing within social history itself. Classical cultural history. Instances of what could be called cultural history have existed throughout the modern era, but most of these have tended to be rather journalistic accounts of day-to-day curiosities that struck the fancy of various amateur historians. German historians proved far more resistant to such innovations, however, and responded angrily to Karl Lamprecht's search for laws of social and political development in his multivolume German History (1891).
