University whole, since each political theory provides a somewhat different image of the notion of a discussion of some theoretical, practical and research implications of the study.
Accountability in education is a broad concept that could be addressed in many ways, such as using political processes to assure democratic accountability, introducing market-based reforms to increase accountability to parents and children, or developing peer-based accountability systems to increase the professional accountability of teachers (and now, especially following the “Race to the Top” initiative of President Obama, using similar tools). Accountability, in the context of standards-based reform, is part of a broader integrated policy package, providing incentives for students, teachers, schools, or districts to perform.
