Legendary armor effects are effects applied to basic armor that use special prefix modifiers that cannot be obtained elsewhere. They cannot be scrapped, but can be modified. They will appear on screen when picked up, and are marked with a star. Unlike unique armors, they are randomized and are never named. Legendary effects can provide the same effects as unique armor. Like unique armors, Legendary armors can be given a custom name and modified at an armor station. A set of 332 hand drawn weapon and armor icons. All icons are of a high quality and implemented in a professional level. A good choice for any game in the fantasy style. All icons have transparent and black background. - Each icon is 256x256 pixels size (PNG); - 332 unique icons in total; - All Icons have transparent and black background.
