He commented to Elman, R. 1977. First in the field: America's pioneering naturalists.

The Birds of America is a book by naturalist and painter John James Audubon, containing illustrations of a wide variety of birds of the United States. It was first published as a series in sections between 1827 and 1838, in Edinburgh and London. Not all of the specimens illustrated in the work were collected by Audubon himself, some were sent to him by John Kirk Townsend who had collected them on Nathaniel Jarvis Wyeth's 1834 expedition with Thomas Nuttall. A great set of stories about some of the most significant botanists, geologists and ornithologists in North American history informed and inspired me for my natural history and environmental education work.
