Women's literature presents a unique view into the female American experience. America experienced many changes following the Civil War. The country was in a period of transformation, including political, economic, social, and literary shifts. As the country emerged into the Industrial Revolution female authors were forging a place for themselves in literary cannon. In previous eras women's writing was relegated primarily to writing for children and poetry. These works were characterized by sentimentality, morality, and depth of feeling considered works of feminine genres (Bomarito & Hunter, 2005). During the nineteenth century the women's suffrage movement reacted to the social, legal, and political inequalities placed on women.
