printing prints alt-process enlarging contact-printing. answered Dec 19 '17 at 20:00. Michael C.Â So whether you print on A4 or A5, you are limited by the same PPI resolution. Inkjet printers have typically 300-700 PPI, whether digital cameras (say, nikon d600 with 24 megapixels) have about 6000x4000 pixels. This means that your final print resolution is limited by your printing prints alt-process enlarging contact-printing. answered Dec 19 '17 at 19:02. aaaaaa.
