Read the full-text online edition of *American Environmentalism: Values, Tactics, Priorities* (1980). In this book Joseph Petulla sorts out the various issues and concepts of environmentalism by tracing their inspiration and values from the three traditions of environmental thought—the biocentric, the ecologic, and the economic. He examines the movement's historical roots, assumptions, goals, values, politics, struggles, successes, limitations, trends, and, finally, the priorities it has brought to the national consciousness. This disentangling, clarifying process involves political implications and judgments about the recent directions of the environmental movement. *American Environmentalism: Values, Tactics, Priorities*.
