Encyclopedia Of Statistics In Behavioral Science

Brian Everitt David C Howell

Representing an invaluable addition to both the psychological and statistical literature, the Encyclopedia of Statistics in Behavioral Science forms an essential reference work for researchers, educators and students in the fields of applied psychology, sociology, market research, consumer behavior, management science, decision making and human resource management. Representing an invaluable addition to both the psychological and statistical literature, the Encyclopedia of Statistics in Behavioral Science forms an essential reference work for researchers, educators and students in the fields of applied psychology, sociology, market research, consumer behavior, management science, decision making and human resource management.

The International Encyclopedia of the Social & Behavioral Sciences, originally edited by Neil J. Smelser and Paul B. Baltes, is a 26-volume work published by Elsevier. It has some 4,000 signed articles (commissioned by around 50 subject editors), and includes 150 biographical entries, 122,400 entries, and an extensive hierarchical subject index. It is also available in online editions. Contemporary Psychology described the work as "the largest corpus of knowledge about the social and behavioral..."
