This wide-reaching handbook offers a new perspective on the sociology of health, illness and medicine by stressing the importance of social theory, and giving due attention to theorists often overlooked in the healthcare field including Harriet Martineau and Raewyn Connell, as well as more widely known theorists such as Michel Foucault and Max Weber. Within these chapters, leading international sociologists from Europe, America, Britain, Australia, New Zealand and Canada investigate the key concepts and theories of a single theorist, looking at the way their ideas such as medicalisation, reflexivity, capitalism
