The global economic power shift¹ away from the established advanced economies in North America, Western Europe and Japan will continue over the next 35 years. China has already overtaken the US in 2014 to become the largest economy in purchasing power parity (PPP²) terms. In market exchange rate (MER) terms, we project China to overtake the US in 2028 despite its projected growth slowdown. India has the potential to become the second largest economy in the world by 2050 in PPP terms (third in MER terms), although this requires a sustained programme of structural reforms³. We project new emergi

The world entered the 1990s with a bang. There were two major developments behind this, the victory of the United States and coalition forces in the 1990 Persian Gulf War, and the dissolution of the Soviet Union in 1991. Both of these foreign policy successes were a shot in the arm for Bush's Administration, as his approval ratings skyrocketed to 90%.

1. Economic Recession. President George H.W. Bush inherited the economic prosperity of the Reagan years, which rejuvenated the nation. However, by July 1990, the economy fell into a recession. The federal budget deficit increased (despite Presiden
