* = Look for other good books by this author

For documents such as basic articles, the output of `\maketitle` is often adequate, but longer documents (such as books and reports) often require more involved formatting. We will detail the process here. There are several situations where you might want to create a title in a custom format, rather than in the format natively supported by LaTeX classes. While it is possible to change the output of `\maketitle`, it can be complicated even with minor changes to the title. In such cases it is often better
