Technology visionaries, such as Elon Musk from Tesla Motors, Bill Gates Beyond this, a kind of social control is also planned A Strategy for the Digital Age citizens can use their data to play an active role in the global data economy.

The Information Age (also known as the Computer Age, Digital Age, or New Media Age) is a historic period in the 21st century characterized by the rapid shift from traditional industry that the Industrial Revolution brought through industrialization, to an economy based on information technology. The onset of the Information Age can be associated with William Shockley, Walter Houser Brattain and John Bardeen, the inventors and engineers behind the first transistors, revolutionising modern technologies.
