The theatre is sometimes called a mixed art because it combines the script of the playwright, the environment created by the scene designer, and the speech and movement of the performers. In the earliest theatrical performances, the dramatist performed all artistic ^ functions, including acting. Gradually, specialists developed and the various theatre arts emerged. The actor and the playwright gained recognition first, partly because they needed each other in order to bring their arts to life. In the modern theatre, a director is used to integrate all aspects of production, including scenery,
