Paid Memberships Pro is the easiest membership tool for WordPress if you want to start taking payments immediately with little hassle. Setup is quick and the documentation is thorough when required, but I have not found much outside of the available add-ons that I need. Bret PhillipsSideways8.Â I discovered Paid Memberships Pro whilst looking for something to integrate with the LearnDash LMS. Iâ€™m really pleased with your how your plugin works and look forward to using it on future sites.
