The Horten Brothers and Their All-Wing Aircraft - Thriftbooks Before and during the Second World War Reimar Horten and his brother Walther. Reimar Horten was convinced that the most efficient aircraft would be all wing

A jet-powered flying wing design such as the Horten Ho 229 has a smaller radar cross-section (RCS) than conventional contemporary twin-engine aircraft because the wings blended into the fuselage and there are no large propeller disks or vertical and horizontal tail surfaces to provide a typical identifiable radar signature.[12][5].^Å The Horten Brothers and Their All-wing Aircraft. London: Bushwood Books, 1997. ISBN 0-7643-0441-0. Black Aircraft Flying Wings. Hitler's Stealth Fighter Reborn .. Photograph by Linda Reynolds/Flying Wing Films. July 25, 2009--At a Northrop Grumman facility in California, top stealth-plane experts admire their handiwork in late 2008^Å^{3a} full-size, though flightless, replica of a Horten 2-29, aka Hitler's stealth fighter, created for a documentary airing June 28 on the National Geographic Channel. The team tested the re-created Nazi jet against World War II-style radar.^Å "That loss never left him to the day he died," said Myhra, author of The Horten Brothers and Their All-Wing Aircraft. "He was burning with revenge and felt the need for a plane that would be pretty much invisible to Britain's Chain Home radar system. That's what he wanted his brother to design."
