Few historians are comfortable with the triumphalist and western Europe-centred image of the Renaissance as the irresistible march of modernity and progress. A sharp break with medieval values and institutions, a new awareness of the individual, an awakened interest in the material world and nature, and a recovery of the cultural heritage of ancient Greece and Rome—these were once understood to be the major achievements of the Renaissance. Today, every particular of this formula is under suspicion if not altogether repudiated. Despite being intertwined in history, the Medieval and Renaissance periods contain vast differences in European culture from one another. These eras are usually either seen as great educational and societal strides made in history, or as periods that simply stunted Europe from reaching its full potential sooner. The Europeans were looking for a system that would work for their growing and changing nation. There are three major sections in the timeline encompassing the history of Europe. These time periods are referred to as Antiquity, the Medieval era, and the Renaissance period. The Medieval era began in the dying years of Antiquity and preceded the Renaissance period.
