Successful parenting produces successful kids. Parents who produce prize prodigies have several things in common. So what ensures a child’s success? Are some kids genetically predisposed to do better than others or are the parents completely on the hook for ensuring their children achieve their goals? It’s the old nature versus nurture debate which has been raging since the beginning of time. The happiest, most successful children have parents who do not do for them what they are capable of doing, or almost capable of doing; and their parents do not do things for them that satisfy their own needs rather than the needs of the child. The central task of growing up is to develop a sense of self that is autonomous, confident and generally in accord with reality. If you treat your walking toddler as if she can’t walk, you diminish her confidence and distort reality.
