Happy Christmas!

by John Escott

SUMMARY

This book is an anthology of fact and fiction connected with Christmas. There is a play, which tells the story of the first Christmas. There are many facts concerning the traditions and customs that have grown up around the celebration. The book reveals that the celebration of Christmas is widespread – there is information about Egypt, Japan and China as well as details of customs in the known Christian areas of Europe and America. The book demonstrates that although Christmas is celebrated all over the world, there are marked differences in the days which are special and ways in which the period is marked. Special meals and present giving, however, seem to be common to many countries.

In addition to the factual information, there is a Christmas love story, a Christmas ghost story, and a Christmas quiz, to find out if you are a Santa – the mythical Santa Claus who gives presents to children at Christmas – or a Scrooge – the character who hated Christmas in Dickens' famous short story, *A Christmas Carol*.

ABOUT JOHN ESCOTT

John Escott lives in Bournemouth, on the south coast of England and has been a writer for some time. He writes both fiction and factual books for readers of all ages.

BACKGROUND AND THEMES

Christmas is clearly a Christian festival. The name simply means Christ's Mass or birth and originally it was a time to celebrate the birth of Christ. However, in the New Testament there is no mention of any Christmas customs. Indeed, it does not even tell us

the year or the date of the birth of Jesus. The celebration of the Nativity did not, in fact, start until the fourth century, when the Romans allowed public observance of Christianity in their empire.

The date of 25th December was chosen around this time because it fitted with existing pagan festivals to mark the winter solstice. The sun reached its lowest point and was then reborn into a new year, just as God's son was born.

Many of the symbols of Christmas were already involved in pagan winter festivals – the yule log, for example, was part of sun worship long before Christianity, pagans sang carols – or singing dances before they got religious words, and the holly and ivy were celebrated in ancient times because they survived the winter in all their splendour. Later, for Christians, the holly berries came to represent Christ's blood and its prickly leaves His crown of thorns. Even present giving was not a Christian invention but was adopted from an old Roman tradition. But the name of the present-giver in many countries, Santa Claus, is a corruption of a Christian figure St. Nicholas, the patron saint of children.

Teacher's notes

Communicative activities

The following teacher-led activities cover the same sections of text as the exercises at the back of the Reader and supplement those exercises. For supplementary exercises covering shorter sections of the book, see the photocopiable Student's Activities pages of this Factsheet. These are primarily for use with class readers but, with the exception of the discussion and pair/groupwork activities, can also be used by students working alone in a self-access centre.

ACTIVITIES BEFORE READING THE BOOK

Ask students to work in groups and answer these questions:

- 1 What are some of the traditions associated with Christmas in your country?
- 2 How important is Christmas to the people of your country?

ACTIVITIES AFTER READING A SECTION

Pages 1–11

- 1 Ask students to work in small groups. Tell them to make a calendar beginning on 1st December with advice on what to do to prepare for Christmas and when to do it.
- 2 Put students in groups of five to rehearse and then act out Party Boy.

Pages 12–21

Put the students in groups of twelve (if possible) or smaller to rehearse and then act out The Christmas Story.

Pages 22–29

Put students into small groups. Ask them to look through the story again up to page 28 – 'We must get you inside quickly,' he said.

Ask them to think up a different ending to the story so that it is not a ghost story – there must be a rational explanation for what the old man says in the living room and for the fact that there is no other set of footprints leading onto the lake. Get students to tell their endings to the other groups and decide which is the best one.

Pages 30–39

Put students into teams to play noughts and crosses. Copy the following grid onto the board:

Santa Claus	pantomimes	Twelfth Night
decorations	Boxing Day	stockings
Christmas carol	White Christmas	Christmas card

One team starts and chooses a square – they must say something true about the word in their square. Either you or the members of the other team decide if the sentence is acceptable. If it is, they put their symbol, a nought (0) or a cross (X) in that square. The first team to get three of their symbols in a row, up, down or diagonally, wins.

ACTIVITIES AFTER READING THE BOOK

Ask students to work individually and make a list of ten things they learnt about Christmas from reading this book. Then put students in small groups to compare their lists.
