There's no description for this book yet. Can you add one? Edition Notes. "Translated from the Swedish by Dr. E. Classen." - T.p. verso. The Physical Object. This catalog shows how archaeological research during the last twenty years has revolutionized our understanding of the emergence of civilization in China. Recent discoveries have made a more lucid picture of the diverse cultural landscape possible in the prehistoric period. The selected works from the Meiyintang Collection, presented in the context of these finds, reflect not only that diversity, but also the beauty and fine craftsmanship of ancient Chinese ceramics from the late Neolithic period into the Bronze Age. Exhibition catalog, 2000. Paperback, 143 pages: ill. ISBN: 0-9654270-3-X. Da Journal of the Royal Asiatic Society. Article. Article. Children of the Yellow Earth: Studies in Prehistoric China. By J.
