Check out our Pho Francis I was the first Renaissance king of France, and reigned from 1515 to 1547. A man of considerable intelligence and education, Francis embraced the new art of Renaissance Italy with enthusiasm and taste, collecting the finest paintings and sculptures from Michelangelo, Raphael, Titian and others. When possible he brought the artists back to work with him in France. His many acquisitions and commissions formed the nucleus of the French royal collections, now in the Louvre. This book places the works in historical context, presenting them in the light of Francis’s artistic patronage.
