Home. Australian Prescriber. Martindale: The Complete Drug Reference. 38th ed. A. The drug monographs are laid out in an easy-to-read manner and have been restructured. "Uses and administration" appears immediately after the physicochemical description of the substance. In contrast to other references such as Micromedex and MIMS, the pharmacokinetic information for products appears at the end of the monograph, after the interactions and adverse effects. The information is current and well researched, although there were some gaps in entries, especially with respect to complementary and alternative therapies.
