Juicing for Vitality: 7 Days to a Better Life, Drastically Improve your Energy, Lose Weight, Improve Sex Drive, Improve Skin Complexion and Much More

By: Sione Michelson

!!NEW!! Over 100 Delicious Nutribullet & Ninja Recipes

Millions of people die every day all over the world because they aren't aware of the damage they are doing to their bodies. Its no secret that because many of us have such busy lifestyles that it causes us to think "convenience" over health when it comes to eating. If you have diabetes, high blood pressure, high cholesterol, feel tired all the time or you are overweight like i was then you must do something right now to reverse these debilitating conditions because your body is telling you "I'M DYING. There is absolutely no better way to start your journey to optimal health then juicing. I can't even begin to tell you how beneficial juicing is to your health, you just have to try it to believe it. Juicing helps you consumer more fruits and vegetables in one sitting than you probably will care to consume in a week, I know it did for me. Juicing has helped me shed tons of weight, get clearer skin, lower my cholesterol, lower my blood pressure and obtain massive energy. If you want to be successful at anything in life, if you want to get rid of excess weight, if you want to get that guy or girl of your dreams than it all starts with how you feel and being healthy is critical in achieving this and all the things you want in life. 10 years ago I was 50 pounds over weight, divorced and just down right depressed until I saw an infomercial on the Ninja Blender in the middle of the night. I was amazed at how easy it was to stick large pieces of fruits and vegetables into the blender and then moments later you had a delicious healthy life saving drink.

Nursing Care Plans

By: Meg Gulanick & Judith L. Myers

The bestselling nursing care planning book on the market, Nursing Care Plans: Diagnoses, Interventions, and Outcomes, 8th Edition covers the most common medical-surgical nursing diagnoses and clinical problems seen in adults. It includes 217 care plans, each reflecting the latest evidence and best practice guidelines. NEW to this edition are 13 new care plans and two new chapters including care plans that address health promotion and risk factor management along with basic nursing concepts that apply to multiple body systems. Written by expert nursing educators Meg Gulanick and Judith Myers, this reference functions as two books in one, with 147 disorder-specific and health management nursing care plans and 70 nursing diagnosis care plans to use as starting points in creating individualized care plans.217 care plans --- more than in any other nursing care planning book.70 nursing diagnosis care plans include the most common/important NANDA-I nursing diagnoses, providing the building blocks for you to create your own individualized care plans for your own patients. 147 disorders and health promotion care plans cover virtually every common medical-surgical condition, organized by body system. Prioritization care planning guidance organizes care plans from actual to risk diagnoses, from general to specific interventions, and from independent to collaborative interventions. Nursing diagnosis care plans format includes a definition and explanation of the diagnosis, related factors, defining characteristics, expected outcomes, related NOC outcomes and NIC interventions, ongoing assessment, therapeutic interventions, and education/continuity of care. Disorders care plans format includes synonyms for the disorder (for easier cross referencing), an explanation of the diagnosis, common related factors, defining characteristics, expected outcomes, NOC outcomes and NIC interventions, ongoing assessment, and therapeutic interventions. Icons differentiate independent and...
