It is however the UK Limited Partnership (LP) that is one of the most popular non-listed investment vehicles used to invest in UK and European real estate. The benefits of these structures include limited liability protection for investors, tax-transparency and having effective measures in place to protect assets from creditors. On the flip-side, limited partners will always need to be cautious to distinguish between the functions of ownership and control.Â Duty not to compete with the Partnership â€ The duty not to compete will largely fall away under the new PFLP. This is to deal with the issue of larger investors that might be invested in other funds with similar policies, objectives or investments. Real estate limited partnerships have become an increasingly popular form of investment over the past decade. Many investors have been drawn to these investment vehicles because of the high claimed rates of return earned by investors in previous partnerships. However, there has been little analysis of the historical rates of return on these investments other than that provided by the syndicators in offering prospectuses. This paper examines the returns earned by investors in real estate limited partnerships over the past decade. These results are compared with previous studies of the investmen A real estate partnership refers to the business structure between two real estate entrepreneurs who have decided to work together in a professional environment. In its simplest form, however, a real estate partnership is exactly what it sounds like: two or more people working together in the real estate industry to accomplish a single goal. That said, the more legitimate classification of a real estate partnership is a real estate limited partnership (RELP). According to Investopedia, a RELP is â€œa limited partnership entity organized to invest in real estate.â€ A real estate limited partnershi...
