The book examines the tactics and strategies of the more than eight thousand foreign correspondents who converged on Hong Kong for a few days in the summer of 1997 to record one of the last episodes in western colonialism. It tracks the key players and follows the salient issues in this fin de siècle event. It provides unique insights into the particular concerns of competing national media teams, by comparing them against each other, against local coverage and the official record. The context of this study is the month long period in which Hong Kong's fate as a part of China is decided in a series of ritual events. Reporting Hong Kong: Foreign Media and the Handover has been added to your Cart. Add to Cart. Turn on 1-Click ordering. During the handover all the televisions and newspapers of the World sent people here to report on facts which they could hardly grasp, because they were too complex, too fast and all interconnected. Most of these parachute journalists ended up interviewing each other and consulting the few residents newsmen. Once a mistake was broadcasted or printed by one of them it was automatically taken up by all and it became the official truth, even if the truth was exactly the contrary. All the awful limitations of the TV are clearly exposed: moving images are good to describe something spectacular and Reporting Hong Kong book. Read reviews from world's largest community for readers. The book examines the tactics and strategies of the more than eight thousand foreign correspondents who converged on Hong Kong for a few days in the summer of 1997 to record one of the last episodes in western colonialism.
