The positive concept of freedom. 211. Freedom and autonomy. 212. Is only a good will free? 213. Two kinds of heteronomy.Â The Law of Nature as a Type of the Moral Law 1 The form of law. 157. The problem of exhibition.Â How is a categorical imperative possible? 1 The deduction. 242. A categorical imperative, on the other hand, unconditionally demands performance of an action for its own sake; it has the form "Do A." An absolute moral demand of this sort gives rise to familiar difficulties: since it expresses moral obligation with the perfect necessity that would directly bind any will uncluttered by subjective inclinations, the categorical imperative must be known a priori; yet, it cannot be an analytic judgment, since its content is not contained in the concept of a rational agent as such.Â In *Die Metaphysik der Sitten* (Metaphysics of Morals) (1797) he worked out the practical application of the categorical imperative in some detail, deriving a fairly comprehensive catalog of specific rules for the governance of social and personal morality.
