What Computer-Aided Learning achieves – Generally classroom teaching has a high teacher-to-learner ratio which leads to less interaction between teacher and learner. One to one relationship is emphasized more in Online learning than in classroom lectures. According to Tiffin & Rajasingham (1995), the traditional classroom teaching means that besides organizing a place for learning, it is necessary to organize when teachers and learners meet and how they use their time. Typically, classroom instruction provides a set group of students with a set chunk of instruction on set dates for set per Link. Microcomputers In Education 2010. 1,901 views. Share. Like.
